#### **Safe Walking Routes**

SCC members met to review the Safe Walking Routes for students who attend Sprucewood. Council members went to each of the zones (zones 1 – 5), surveying the routes for potential dangers or issues.

No *new* issues were found. Council discussed existing issues, including the walking route for students living in the Sunset Ponds neighborhood. There is a large section of the route where students must walk on the road, a high-traffic area, since there is not a sidewalk. Mrs. Jones will contact Draper City about this issue.

Mrs. Jones will update the Safe Walking Routes document.

The updated Safe Walking Routes document is posted at
